

With this component the flushing function is fully guaranteed. When the vessel is disconnected from the system the system flow remains in function. Airfixcontrol enables an easy yearly precharge check of the Airfix A or D expansion vessel.

DVWG certification applied in combination with Airfix A or Airfix D.

- Complete connector set including shut-off and drain.

Technical Specifications

- Maximum water temperature: 70 °C.
- Maximum working pressure: 10 bar.

Classification General Data

Etim Group	Pressurization and expansion systems
Etim Class	Accessories/spare parts for pressure expansion vessel
Product Name	AirfixControl
Brand	Flamco
Product Type	Accessories
Order Code	28930
GTIN	8712874289307

Attributes

Type of accessory/spare part	Pressure control
Accessory	Yes
Spare part	No
Model	Pressure control
